Chairman

STAT

SUBJECT: New Study of Harassments and Provocations

1. Since the 1960's, the Security Committee has published periodic studies of harassments and provocations against Americans traveling in or assigned to Communist countries. These have served the Community effectively as defensive briefing guides for cleared travelers or assignees. The last such study was issued in June 1982 (copy attached). At the request of SECOM members and using material contributed by their departments and agencies, we have prepared an update of the study to reflect recent experience. The result was unanimously approved by SECOM members at the 23 October 1985 meeting. The final draft is attached. It is proposed for issuance at the For Official Use Only level to permit broad use with dependents and contractors as well as with cleared personnel.

2. Your approval for publication of this study is requested. If you concur, it is requested that you so indicate below and forward this package to the IC Staff publications officer for printing and distribution.
